## P/N: RM1-4U

## RM1-4U Liquid Cooling System [06mm, 1/4in]

Koolance's rack-optimized systems eliminate the need for airflow over sensitive electronic hardware, ideal for manufacturing areas and other applications in high-dust environments. Choose hardware at will with the assurance they'll be kept clean, cool, and quiet. You might even reduce power consumption by eliminating chassis and chip fans!

The RM1-4U is recommended for single CPU cooling, with 2-3 liquid blocks total for best performance (such as: hard drive and motherboard chipsets).

- Rack-mountable 4U IPC form factor
- Lockable front door for security
- 2 front USB ports
- Heavy-duty steel construction

| General                    |                     |
|----------------------------|---------------------|
| Weight                     | 39.00 lb (17.69 kg) |
| Cooling Systems            |                     |
| Display Type               | LED                 |
| Fans                       | 1 x 80mm (42CFM)    |
| Max Flow Rate (10-13mm ID) | R-PMP01             |
| Power Source               | 12 VDC              |
| Radiator                   | Aluminum            |
| Temperature Sensors        | 55K Thermistor      |
