

## VID-NX470 Water Block (NVIDIA GeForce GTX 470/465 Video Card)

The Koolance VID-NX470 is a combined GPU and memory block for water cooling NVIDIA GTX 470 and GTX 465 video cards in single and multi video configurations. It utilizes a high-performance microfin (0.5mm) design made of solid copper with anti-corrosive nickel plating. The cooler targets all primary heat-producing regions of the GTX 470, including the voltage regulators. The top stainless steel cover plate protects an acrylic lid.

Fitting threading is standard G 1/4 BSPP. For multiple card configurations, video [connectors](#) are also available.

NOTE: This product is based on the original reference board layout. It will not fit video cards which have been changed from the original AMD or NVIDIA reference spec.

General	
Weight	2.00 lb (0.91 kg)
Wetted Materials	Nickel-Plated Copper, Nickel-Plated Brass, Stainless Steel, PMMA Acrylic, Silicone
