P/N: COV-PMP01P

Pump Fitting Base for PMP-400

COV-PMP01P is a nickle-plated aluminum fitting base for the Koolance PMP-400 pump (sold separately). It allows flow to be specifically directed for increased pump performance, or broader chassis integration.

An extremely flexible design permits inlet and outlet fittings (not included) to both be positioned on top, on the side, or perpendicular to one another. Fitting threading is G 1/4 BSPP. Mounting bolts for the pump and rubber insulation pad are included.

General	
Weight	1.00 lb (0.45 kg)
Wetted Materials	Nickel-Plated Aluminum, Nickel-Plated Steel, Silicone
