

**CPU-200G Water Block (AMD/Intel Processor)
[06mm, 1/4in]**

The CPU-200G cooler consists of a rugged transparent upper shell molded over a gold-coated copper cooling plate for a long-lasting, polished interface. Designed for heat sources up to 200W. Works with AMD Athlon XP, Intel P-III, Intel P-4 478, and Intel Xeon "Prestonia" (with adapter).
