

**Radiator/Fans/Shroud, 4x120mm, Aluminum  
(Black)**

The EHX-1320 is a dual-pass, quad-120mm fan heat exchanger, rated to about 1300W of heat dissipation. Four fans and a brushed aluminum shroud are included.

When mounting in the top of a case, the EHX-1320 radiator will usually occupy the top 5.25" bay and *requires 2 inches (51mm) of space above an upper-mounted power supply*. Alternatively, Koolance offers [enclosures](#) to mount this unit externally. 8 mounting screws and metal bushings are included.

NOTE: The EHX-1320 is not sold as a consumer-level product, and does not include instructions on mounting the unit into a chassis. Unless mounted in an external enclosure, it will require permanent modification to the computer chassis ([stencil available here](#)). Technical support with regard to chassis modification is not provided by Koolance.
