

Power converter with adapter to operate Koolance 12V DC cooling systems from a wall plug. This kit includes an AC wall converter (input 100-240VAC 50/60Hz, output 5.0A 12VDC), U.S. power cable, adapter box, mounting screws and pads. The adapter box has an on/off power switch and provides all connections normally found on Koolance slot interface adapters (3 temperature sensors, 2 fan headers, 1 ATX shutdown lead). It is designed to attach directly to the cooling system's rear DB9 plug. Made of lightweight aluminum, 2.2" x 2.2" x 0.8" (5.5cm x 5.7cm x 2cm).

Compatible Cooling System Models:

- EX2-750
- EX2-750-V2
- EX2-751-LX
- EX2-752
- EX2-755
- EX2-1050
- EX2-1055
- EXT-400-V2
- EXT-400-V3
- EXT-440CU
