

HTS-PMP400 is an optional aluminum heat sink for extra cooling of the Koolance [PMP-400](#) pump. This can assist in improving component reliability under high ambient temperature conditions. When assembled, the heat sink is in direct contact with the pump electronics via a thermal pad.

A steel base with bottom and side mounting features is included along with related mounting hardware. This base replaces the stock plastic base. HTS-PMP400 is compatible with both the original pump top and Koolance [COV-RP400](#) pump fitting base.

General	
Weight	0.50 lb (0.23 kg)
