

**VL2 Quick Disconnect Low-Spill Coupling, Pair w/ L-Bracket for ID  
06mm (1/4in)**

Koolance 6mm (1/4in) ID quick disconnect coupling with automatic shutoff pair with L-bracket. Fittings feature hose barbs on the inside and compression fittings on the outside. The quick-disconnects enable convenient connection and disconnection of external devices such as a Koolance Exos and Exos-LT.

After unscrewing, the quick-disconnect fittings will separate. Liquid on both sides will be automatically obstructed with only 0.5-1mL freed. The fittings are nickel-plated brass.
