

HX-720 is a low profile aluminum radiator designed for two 120mm fans. With a fin density of 18 FPI (fins per inch), it is optimized for quieter air flow ranges, but will readily benefit from high CFM fans. It has a dual pass coolant design, with G 1/4 BSPP (parallel) threads for tube fittings. 30mm (1.18") long mounting screws are included for 25mm thick fans (see Koolance [radiator screw packs](#) for additional options).
