P/N: VID-278

VID-278 Water Block (NVIDIA GeForce 8800GT 512MB Video Card)

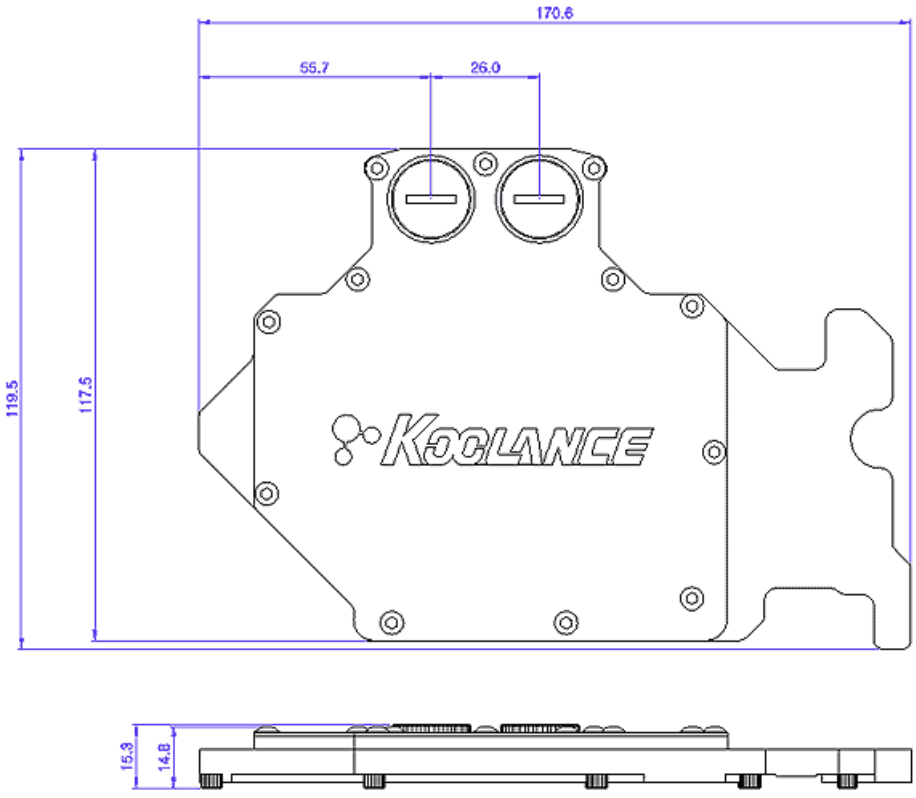

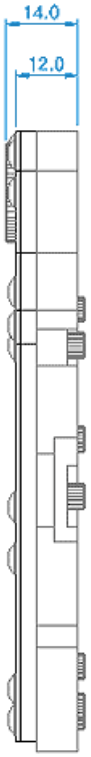

The Koolance VID-278 is a combined GPU and memory cooler for high-end video cooling of GeForce 8800GT 512MB (65nm) in single or multi video configurations. It combines a full gold-plated solid copper cooler which targets all primary heat-producing regions of the 8800, including the voltage regulators.

Fitting threading is standard G 1/4 BSPP. For multiple card configurations, video connectors are also available.

NOTE: This product is based on the original reference board layout. It will not fit video cards which have been changed from the original AMD or NVIDIA reference spec.
