P/N: VID-385

VID-385 Water Block (AMD Radeon HD 3850 Video Card)

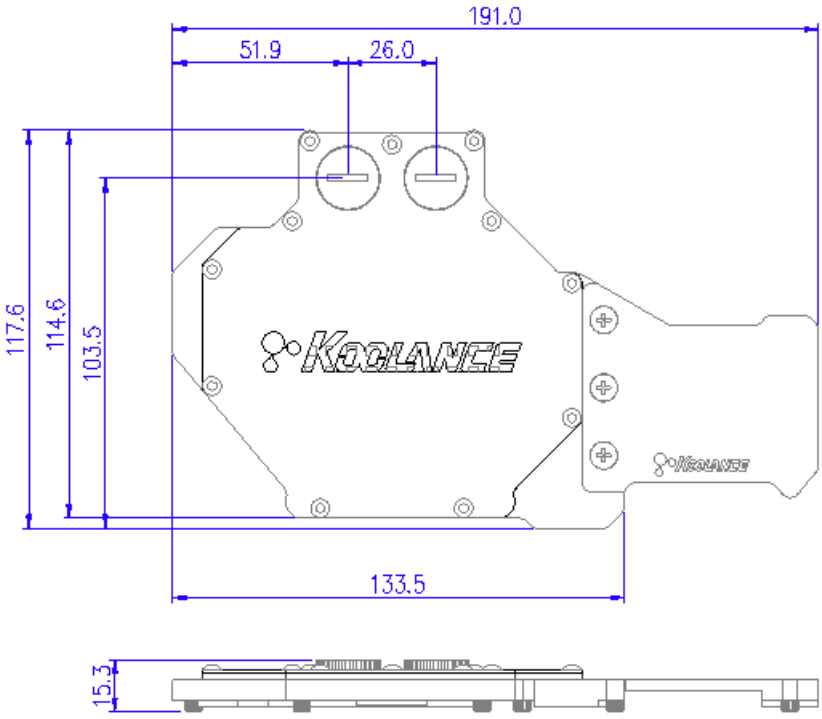

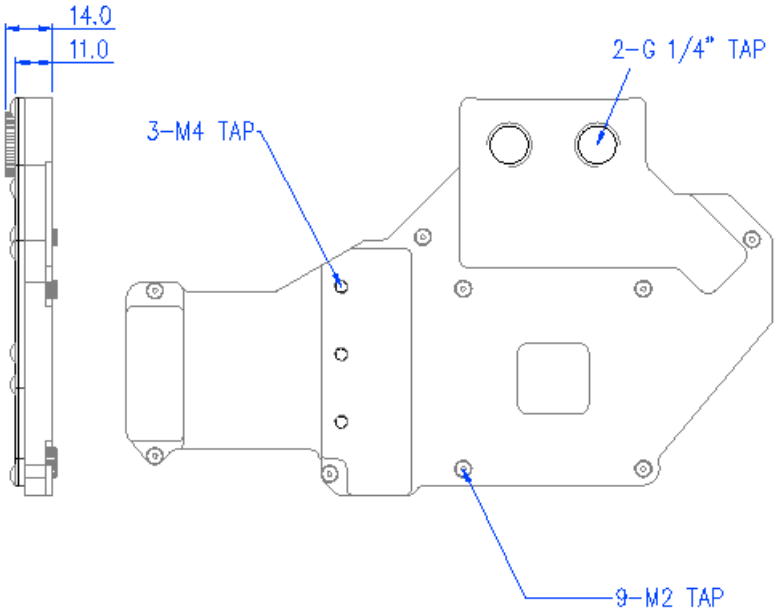

The new Koolance VID-385 is a combined GPU and memory cooler for high-end video cooling of Radeon HD 3850 cards in single or multi video configurations. It combines a full gold-plated solid copper cooler which targets all primary heat-producing regions of the HD 3850 (including the voltage regulators).

Fitting threading is standard G 1/4 BSPP. For multiple card configurations, video connectors are also available.

NOTE: This product is based on the original reference board layout. It will not fit video cards which have been changed from the original AMD or NVIDIA reference spec.
