

VID-398 Water Block (NVIDIA GeForce 9800 GTX/GTX+ Video Card)

The new Koolance VID-398 is a combined GPU and memory cooler for high-end video cooling of GeForce 9800 GTX and GTX+ cards in single or multi video configurations. It combines a full nickel-plated solid copper cooler which targets all primary heat-producing regions of the 9800 GTX (including the voltage regulators). An acrylic lid allows coolant visibility under the logo.

Fitting threading is standard G 1/4 BSPP. For multiple card configurations, video [connectors](#) are also available.

NOTE: This product is based on the original reference board layout. It will not fit video cards which have been changed from the original AMD or NVIDIA reference spec.

General	
Weight	2.00 lb (0.91 kg)
Wetted Materials	Nickel-Plated Copper, Nickel-Plated Brass, PMMA Acrylic, Silicone
