

VID-NV1-L06 Water Block (NVIDIA GeForce 6800 Video Card) [06mm, 1/4in]

Liquid cool your video chipset and memory! For AGP GeForce 6800 GT and Ultra cards, the VID-NV1-L06 provides top performance while furthering silence. Installation is simple, with 360-degree rotational fittings and a tool-less mounting bracket.

The VID-NV1-L06 combines a gold-plated high density solid copper GPU cooler, and anodized aluminum memory cooler.

NOTE: The VID-NV1-L06 is designed for AGP 6800 GT and Ultra video cards only, and will not work on PCI Express cards, in SLI configurations, or with regular AGP GeForce 6800 cards.
