

VID-NX275 Water Block (NVIDIA GeForce GTX 275 Video Card)

The new Koolance VID-NX275 is a combined GPU and memory cooler for high-end video cooling of NVIDIA GeForce GTX 275 cards in single or multi video configurations. It combines a full nickel-plated solid copper cooler which targets all primary heat-producing regions of the GTX 275 (including the voltage regulators). An acrylic lid allows coolant visibility under the logo.

Fitting threading is standard G 1/4 BSPP. For multiple card configurations, video [connectors](#) are also available.

NOTE: This product is based on the original reference board layout. It will not fit video cards which have been changed from the original AMD or NVIDIA reference spec.
