P/N: CNT-VDB2

Video Bridge Connector, 2-Cards x 3-Slots

Koolance video bridge connectors link multiple video water blocks together with ease. Flow can be directed in series or parallel. CNT-VDB2 is for combining two (dual L-bracket) video blocks which have an empty slot in between them. This product is only compatible with Koolance VID-series water blocks which have detachable fitting bases (launched in 2013 or later).

NOTE: Hose barbs are recommended for 10mm (3/8in) and 13mm (1/2in) ID tubing sizes to avoid conflicting with the water block or video card.

General	
Weight	0.54 lb (0.24 kg)
Fitting Thread	G 1/4 BSPP
Max Pressure Tolerance @ 25°C	2kgf/cm2 (28.5psi)
Max Temperature Tolerance	80°C (176°F)

* Dual Serial

* Dual Parallel
