

**VL2N Quick Disconnect No-Spill Coupling,
Pair w/ L-Bracket for ID 06mm (1/4in)**

Koolance quick disconnect no-spill couplings with L-bracket. Fittings feature hose barbs on the inside for 6mm (1/4in) ID tubing and VL2N male fittings on the outside (for connection with female VL2N). The quick-disconnects enable the convenient connection and disconnection of external devices such as a Koolance Exos. The fittings are nickel-plated brass.

NOTE: Installing this product into a PCI slot can require bending or filing of the surrounding metal slot dividers. 13.5mm in height is required for each fitting.
